JOHN B. WOODS CERTIFIED TREE SEEDS OF THE PACIFIC COAST

CABLE ADDRESS **WOODSEED**PHONE - **4-3535**P. O. BOX 647, **SALEM, OREGON**

Dear Inquirer:

The crop of seeds of native trees in the Pacific Northwest is the poorest ever. We are utterly unable to fill orders for large quantities and so we are offering small lots for home planting—to make the small supply go farther and try to obtain at least the cost of our collections. We pay postage anywhere in the U. S. A.

This price list is good only until November 10th. By that time we certainly shall be sold out. Send your orders at once—minimum \$3.50. Fall planting of trees is best.
